

MD MOBIN

DATA ANALYST | SQL DEVELOPER

Phone: +91 7903906481
Email: mdmobin7903@gmail.com
Location: Bihar, Muzaffarpur
Portfolio: codermobin.github.io/Portfolio
GitHub: github.com/codermobin/profile
LinkedIn: linkedin.com/in/codermobin/

TECHNICAL SKILLS

Core Languages: SQL (MySQL, PostgreSQL), Python

BI & Analytics: Power BI, Microsoft Excel (Advanced, Power Query)

Database Mgmt: Schema Design, Normalization, Stored Procedures, CRUD Operations

Data Processing: Cleaning, Preprocessing, Exploratory Data Analysis (EDA), Visualization

SOFT SKILLS

- Analytical & Logical Thinking
- Structured Problem Solving
- Technical & Business Communication
- Collaborative Teamwork & Adaptability

EDUCATION

Bachelor Of Computer Application
I. K. Gujral Punjab Technical University (IKGPTU)
August 2022 – August 2025

12th, Science **68.20%**
Bihar Board Of Open Schooling & Exam, Patna

10th **60.6%**
Bihar School Examination Board, Patna

CERTIFICATIONS

Data Analytics Certificate
ApanaTime Solutions • Jun 2026

TCS iON Career Edge – Young Professional
Tata Consultancy Services • Jun 2026

Microsoft Excel Beginners To Advance
Skill Course (ID: SC-KJBH38KQJZ) • Sep 2026

30 Days Power BI Micro Course
Skill Course (ID: SC-NO8R6DAQJ5) • Sep 2026

PROFILE SUMMARY

Results-driven BCA graduate skilled in SQL, MySQL, Python, Microsoft Excel, and Power BI. Experienced in architecting normalized databases, engineering automated analytical pipelines, and crafting interactive BI dashboards to extract actionable business insights. Eager to deliver immediate impact as a Data Analyst or SQL Developer.

WORK EXPERIENCE

Data Analyst Intern — Apana Time Solutions Jan 2026 – Jun 2026

- Extracted, cleansed, and analyzed operational business records using complex SQL queries and advanced Excel.
- Engineered interactive Power BI dashboards to track company KPIs, improving reporting efficiency.

KEY PROJECTS

Employee Management System **SQL, MySQL**

- Engineered complete relational schema for managing organizational employee records, departments, and payroll.
- Authored optimized CRUD queries, indexes, and stored procedures to streamline database lookups.

Sales Performance Dashboard **Power BI, Excel**

- Constructed an interactive executive dashboard analyzing revenue trends, profit margins, and regional growth.
- Formulated DAX measures (YoY growth, moving averages) and dynamic slicers for executive decision support.

Enterprise Workforce & Project Management **SQL**

- Designed multi-entity database structures managing project allocations, milestones, and resource workloads.
- Leveraged aggregate functions, subqueries, and views to automate operational productivity reporting.

Hospital & Banking Systems **SQL, RDBMS**

- Implemented secure database schemas managing clinical records, patient billing, and financial transactions.
- Enforced ACID compliance and referential integrity constraints to eliminate data redundancy.

Student Performance & Placement Analysis **Excel, SQL, Power BI**

- Processed multi-year academic datasets to uncover key variables impacting student hiring rates.
- Delivered visual analytics identifying high-demand skills to optimize institutional placement strategies.

Healthcare Disease Prediction **Python, Scikit-Learn**

- Trained predictive machine learning models based on clinical health parameters using Python.
- Conducted exploratory data analysis (EDA), missing value imputation, and feature scaling.
